

We are pleased to announce that the women and the men have agreed to consolidate into one group. This new SouthWest Division will begin operation in January. Until then we will continue to operate as the two groups, working together for the January consolidation.

Any members who are willing to assist the new organization please contact lindapretzelroberts@gmail.com. We are always in need of assistance in managing the division, even more so with a transition in the middle of a pandemic. Your assistance would be greatly appreciated.
